EXPERIENCE

JCAS Logistics	Brgy.Santiago, Malolos, Bulacan
<i>Software Development Intern & Freelance</i>	<i>April 2025 – September 2025</i>
- Designed HR UI mockups in Balsamiq and translated them into responsive frontend components using FlutterFlow. - Developed HR modules including Employee Management, Attendance & Timekeeping, Payroll, Advances History, and Remittances. - Implemented frontend functionality and user interactions for HR features and collaborated in daily stand-up meetings to report progress and resolve blockers.	

PROJECTS

Immaculearn – Collaborative Learning System	
<i>College Thesis Capstone</i>	
<i>Frontend & Backend Developer</i>	<i>September 2024 - March 2026</i>
• Designed role-specific dashboards (Admin, Student, Teacher) with a focus on intuitive navigation, clear information hierarchy, and consistent UI components • Created user flows for account onboarding, role-based content filtering, and dynamic record management features. • Developed and maintained design documentation to support accurate developer implementation • Built supporting interfaces (Terms & Conditions, Privacy Policy, Login) with attention to accessibility and user trust.	

PERSONAL PROJECTS

NYT Science Times — Retro-Themed News Portal

- Designed and developed a pixel-art themed news aggregator using the New York Times API
- Implemented responsive card-based grid layout for article display.
- Live Demo: [nathanielfaborada.github.io/ appsdev-newyork-times](https://nathanielfaborada.github.io/appsdev-newyork-times)

Panahon Mo — Weather Forecast App

- Developed a weather forecasting web application with real-time city-based search functionality.
- Integrated third-party Weather API for live data retrieval and display.
- Designed custom retro-pixel UI theme for distinctive user experience.
- Live Demo: panahon-mo.netlify.app

Crunchie Cookies / Simply Baked — Brand & Visual Design

- Designed full brand identity including logo, Facebook cover photo, and digital menu using Figma.
- Designed the user interface for a ordering system.
- Focused on creating an intuitive and visually appealing layout for better user interaction.

EDUCATION

College of Mary Immaculate of Pandi, Bulacan, Inc.	J.P Rizal St, Pandi, 3014 Bulacan
<i>Bachelor of Science in Computer Science</i>	<i>Graduated March 31, 2026</i>
